

Hello Parents,

October 8, 2018

It's that time of the year again! Scholars will be completing a Science Fair project that will be due on **Tuesday, November 27, 2018.** Over the next week I would like the children to pick a topic and turn it in to me by **Thursday, October 11th** for approval. All topics must be approved before scholars begin working on their projects. You may go to the website [www.sciencebuddies.org](http://www.sciencebuddies.org) or [www.sciencebob.com](http://www.sciencebob.com) to help you come up with a topic. Also, **no robotics or mold projects** will be allowed. Remember your topic must be testable. What are you trying to find out?

You may also get the **Science Poster Board from the school** bookstore as well as the project header cards. Scholars will be provided with the order form for the Poster Boards and header cards. If you don't receive one, I will be happy to provide you with one. I have uploaded the packet that must be turned in with the project. Please print it and be sure your child brings it to class, along with their topic on **Thursday, October 11** because I will be going over it.

Students are required to buy a folder to keep all their science fair notes and packets in. **These can also be purchased through the school bookstore.**

**The following color folder has been assigned to each class:**

4A White

4B black

4C red

4D orange

4E green

If you have any questions or concerns, please do not hesitate to contact me. Thank you in advance for all your help and support.

Sincerely,

Mrs. Hernandez

4th grade Science Teacher
