Homework

Hello Scholars. We will use this week to review multiple standards including: place value, comparison, addition, subtraction, fractions and mixed numbers. Scholars will also work on their business plan to identify material cost for their product.

Scholars have their individualized i-Ready Math lessons due by Sunday.

The 4th Grade Mathematics Curriculum depends on a strong foundation in multiplication and division. The remaining chapters require scholars to be fluent in all multiplication and division facts. Fluency in multiplication and division facts,1 through 9, is essential for your success. Please use Reflex Math to reinforce your facts, https://www.reflexmath.com, Sumdog (www.sumdog.com) , or www.multiplication.com (to focus on individual facts).

Notes

Scholars MUST prove and show all their work. If additional space is needed, please feel free to attach lined paper. Failure to show your work will result in a lower grade. Please complete the homework to the best of your abilities.
