RE: CINEMATH Video online

You can access the online videos at the DIRECT LINK: **cinemath.archimedean.org**

Then, click on "The AMC Cinemath Portal", choose "Grade 7" , and your section - AMA - for "American Mathematics" (for example 07A - AMA).

There, you can see all the lectures. This is a GREAT RESOURCE for you to review the lesson. You can also look at the class notes.
