

Archimedean Schools

Conservatories of Mathematics & the Greek Language

Dear parents,

I am delighted to have the opportunity to work with your children this school year. The purpose of this letter is to give you some information that will help your child make a smooth transition in Greek language in 4th Grade. Enthusiasm for learning and maintaining a good environment is very important.

I am looking forward to a productive partnership with you to ensure that your children can achieve their highest potential. We both recognize that in order to be successful in school, children need support from the home and school. Consequently, a strong partnership with you will make a great difference in your children's education. As a teacher I share the same responsibility for your children's success and I want you to know that I will do my best. The only thing I ask to guide and support your child's learning is to ensure that he/she:

- **Comes prepared to class having the homework packet and other supplies**
- **Completes the homework assignments and follows classroom rules and procedures**
- **Shares school experiences with you so that you are aware of his/her school life**
- **Informs you if he/she needs additional support**
- **Knows that you expect him/her to do well in Greek language**

COURSE DESCRIPTION: The overall purpose of this class is for students to develop skills in Speaking, Listening, Reading, and Writing. Students will apply Greek language skills in this class to the objectives below. Some of the objectives will be fulfilled in writing, some by role plays, and other by short presentations in front of the class. The computers will be also used to reinforce these skill areas. For effective vocabulary learning we will use index cards and Quizlet. Quizlet is a free website that provides learning tools, including flashcards, Speller Study and Game modes. It is ideal for language studying and learning vocabulary. Students will have to make an account to be connected with Quizlet.
