INTRODUCING SPIRAL HOMEWORK

Dear Parents,

We are excited to tell you about a new homework system we will be using beginning the 2nd grading period. It is called "Spiral Homework".

Unlike traditional homework, this style homework focuses on reviewing previously taught concepts each night. By doing this, students are given the opportunity to continuously practice what they have already learned without having hours of homework, and are more likely to master the skills as they continue to practice.

While a majority of each night's homework is review, new skills are also practiced. The bottom row of each week's Language Arts homework is the skill we have most recently learned in class, while all of the above rows are review of older skills.

As a parent, this homework will allow you to see exactly what your child needs to know and is currently learning throughout the school year. Please let us know if you have any further questions. We look forward to utilizing homework time for quality practice and watching students succeed this school year.

Your Partners In Education,
Mrs. Dominguez & Ms. Llanes
