

# **Theatre I, II, III Honors, & IV Honors**

## **Grading period#4, Homework#1**

### **Writing a scene**

For your first homework assignment, you should write a scene.

For the writing of the scene, there are four conditions:

- 1. It is a dialogue.**
- 2. It is taking place in your house during the quarantine for COVID-19.**
- 3. There is a knock on the door.**
- 4. The scene ends outside of the house.**

Your scene is written to be performed by you during our online classes.

You can include noises, you can move around, you can move the camera, you can ask family members to help you.

Ideally, your scene should be totally different from the rest of the scenes. Think about different genres, different styles of dialogue, different ways to perform.

Get inspired by what is going on right now, your thoughts, and your feelings. Follow the conditions, but also use your imagination and your creativity to outsmart them.

You should upload your response as a PDF file on Archie, and it should be typed.

This is the first draft of your scene. After everybody performs their scene, there will be a second homework for the second draft, and so on, until you finalize the scene and record it.
