

Uploading AP United States History Exam Response to Archie

After 7PM tonight please upload your response to the AP question you wrote and submitted to the college board as part of the exam to Archie under the tracked assignment AP United States History Exam Response. I as well as other teachers asked and this is fine according to the college board. You want to upload the exact version you submitted during the exam. I will receive your answer later from the college board to verify this is the case.

You will receive a homework grade for the submitting the response to Archie. Remember I am asking you to do this because the AP Exam you take today as I explained in class will count as your final exam for my course.

Thank You

Mr. Yamron
