

Name: _____ Section: _____

Homework

Hello Scholars and Parents. We will review Place Value, Forms of a Number, Comparing Numbers, Renaming Numbers, Addition and Subtraction on Monday and Tuesday. **Scholars will complete the Chapter 1 Test on Wednesday September 23.** Please use your notes and the Think Central homework to help you review and prepare for the test. Please feel free to contact me with any questions or concerns at morales.zervos@archimedean.org.

Think Central Information

Students have access to the Think Central Student Interactive Edition and the Animated Math Models which support foundational skills. Username and Password to Think Central were provided in class. If your child needs their login information, please let me know via email. <https://www-k6.thinkcentral.com/ePC/start.do>

Extra Practice

If a scholar needs additional practice with the daily lesson, I have uploaded extra worksheets on Archie. To access the worksheets, please have your child login into Archie. Click on Resources, select courses, then My Courses. From there, you will see a drop down menu of each class. Go to American Math and click on Resources. There you will see worksheets for each section in the chapter.

Notes

Homework is assigned through Think Central. If a scholar struggles with a question, the program includes tools providing step by step support as well as viewing an example. When scholars finish their homework lesson, please click on the button **"Turn It In"**. **Completed homework is due by Sunday September 27th.** Students should take the time to prove and show all their work on a separate piece of paper.
