

2nd Quarter Expectations

Time flies, the 1st quarter has ended. We thank you for supporting us as we find new ways to connect with students and keep them engaged through hybrid learning. As we move forward, we ask that you keep reading our weekly newsletters, connect with us through the "remind" app, or email and monitor your scholar's gradebook. During the 1st quarter, we were very flexible with due dates and extension of time to submit assignments. As we step into the 2nd quarter, we are going to allow late assignments to be turned in a week after the due date however, it will count for a grade less. We want to instill in our scholars responsibility as we help them to end the school year working independently and ready to succeed in Second grade.

classroom applications

Please have scholars logged into all accounts for the day to avoid confusion or delays. Daily activities will vary within the applications depending on the class.
