

# Science HW for tonight 10/26/20

## At home experiment

### Your Experiment- Procedure

1. Get two plastic bottles or 2 plastic cups
2. Put plain water in one cup
3. Put water with something else in the other cup  
(ketchup, lotion, dirt)
4. Put both bottles or cups in the freezer at the same time
5. Take out both bottles or cups out of the freezer at the same time
6. Take a photo of both and upload to SeeSaw.
