

Carbon Footprint project

Students, you need to be researching about carbon footprint and put together a power point presentation and create a meme based on Carbon footprint and upload on Archie before class starts on coming Tuesday! (9/6/2022)

Requisites for the presentation:

The presentation should have 5-6 slides.

1st slide: What is carbon print and general information

2nd slide: What causes or increases carbon footprint

3rd slide: What are the consequences of increase in carbon foot print

4th slide: Your family's carbon usage calculation

5th slide: What would you do to reduce the carbon footprint

6th slide: Resources citations and or diagrams

It has to be uploaded in Archi and also you should be ready to present in the class!

Carbon Footprint Meme:

It has to be original (captions) but you can use images from the net.
