AIRPLANE

Two men made the first airplane that worked. They were brothers. Their names were Orville and Wilbur Wright. The airplane was made of wood and was called a "flyer."

Before the brothers invented the first airplane, Orville and Wilbur opened a bike shop. They fixed bikes when things went wrong. They also made their own bikes. They saved the money they made.

The men used the money to build things that could fly. The first two things did not work. The third "flyer" did. It stayed in the air for 12 seconds. It went 120 feet. It was the start of a great invention!

Orville and Wilbur made other planes. The planes got better and faster. Now their first plane is in a museum for the world to see.

THE POPSICLE

Do you love Popsicles®? Most kids do. Did you know that a little boy made the first one? He was only 11 years old. His name was Frank. Frank lived in San Francisco.

One night in 1905, Frank forgot to put his fruit drink away. He left the drink outside. He left a stirring stick in it. He went to bed. That night it got very cold. The fruit juice froze. The stick was still in the middle of the juice, and it got stuck.

In the morning, Frank found his fruit juice. It was frozen. The stick was stuck in the middle. He took a bite, and it was good. It was great! Frank made more and more kinds. He froze fudge. He froze other drinks. They were all good.

Frank's mistake turned into a big frozen deal!
