

## Make a Map: Mythology and the Pre-Socratics

**Student Name** (print):

**Class Section** (circle): 8A 8B 8C 8D 8E

**Grade Type:** Classwork

**Due Date:** October 4<sup>th</sup>

**Instructions:** Create a map that contains southern Italy, Greece, Crete and western Turkey (see below). This map must include the following locations:

- A. The birthplace of Thales, Anaximander and Anaximenes
- B. The birthplace of Xenophanes
- C. The birthplace of Heraclitus
- D. The birthplace of Parmenides and Zeno
- E. The site of the war depicted in Homer's Iliad
- F. The home city of Menelaus
- G. The home city of Agamemnon
- H. The island ruled by Odysseus
- I. The site where the stone that Kronos thought was Zeus is placed
- J. The island where Zeus was hidden as a child

These locations should be labeled on your map with the letter above (A-J), and the proper name (whatever it is). You may include a legend to do this or label the map directly.

This map may be created physically (on a piece of paper with art supplies) or digitally (in whatever drawing/art program you wish). I require **TWO** copies:

- ❖ IF: you made it on a piece of paper, 1) give me the original and 2) take a picture and upload it
- ❖ IF: you made it digitally, 1) upload the file and 2) print out a copy and give it to me

I will grade this map according to the following **rubric**:

- 50% The above locations are properly labeled and placed in the correct locations on the map
- 20% The map represents the correct geographic area and is easily visually readable
- 30% The map is artistically decorated, uses color, and beautifully uses phrases, symbols and/or other means to add tasteful flavor and information to the map in general and the locations in particular

(TURN OVER)

See below an example of the geographic area for this assignment:
