

## Microscope Timeline

1. Research the history of the microscope evolution and usage
2. Each year entry must include a person who invented/constructed the microscope - the picture of the scientist and the microscope picture
3. Start the research from 1600s to present (total of 12+ entries)
4. Size: printing paper – 8x11
5. Can be black/white
6. If no printer available, you can draw it

Google Docs:

7. **Each entry:**
  - a. date of the microscope
  - b. date of the scientists (DOB)
  - c. **short** description of the microscope
  - d. and the **biography** of the scientist

year 1665

8. **SUBMISSION:** all is submitted electronically so you need to scan the timeline and GD. YOU are encouraged to share a hard copy of the timeline too.

**DUE DATE: September 6th, before 23:59**
