

## AMC 6th Grade Earth and Space Science with Ms. Toledo Science Fair Project 2023-2024

Please review the rubric available in the Resources for this class to ensure your project is complete.

If you choose to do a trifold board, you must bring the board to MOD5 on Friday 11/3, even if we do not have class together that day. You may turn your board in early, if you wish.

If you choose to do slides, you will need to submit the slides and background research **NO LATER than 4:30 pm on Friday, 11/3**. You will have a couple of options for how to submit:

1. Save your presentation as a PDF and upload to the homework in Archie like we've been doing for the last several weeks.
2. Cut and paste the link to the presentation and the background research and submit them on the activity in SeeSaw called Science Fair Project Due Friday 11/3/2023

If for some reason you are unable to submit your project on time, you must email me an explanation. Late submissions without an explanation will automatically have a letter grade deducted for each day it is late. All other late submissions will be assessed on a case-by-case basis.
