

Argument Essay (Project)

(Dr. Canino – AP Lang)

To continue with our practice for the AP exam, your next test grade will be an argument essay that you will work on independently and turn in to me on Archie. In this essay, you will respond to the given prompt, and develop an argumentative essay. The prompt you must respond to is below:

The term “underrated” is often used to apply to concepts, places, roles, etc. that a speaker believes do not receive the prestige they should. For example, many may argue that a not-well-known music album is “underrated,” or that long, leisurely walks by oneself are “underrated” as well, despite seeming boring to others. Another example of this concept at work is with pop star Billie Eilish. “Lyrics are so important” Eilish went on record saying about writing music, “but they’re really underrated.”

Select a concept, place, role, etc. to which you believe that the term “underrated” should be applied. Then, write a well-developed essay in which you explain your judgment. Use appropriate evidence from your reading, experience, or observations to support your argument.

Your essay must have an introduction, conclusion, and at least one body paragraph. It should be written in MLA format, in 12-Point, Times New Roman font, with 1” margins, MLA-style header, and a title.

This essay will be due on Archie on Wednesday, March 27th, at Midnight.
