

## Science Homework: Freshwater and Saltwater Habitats

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Choose the best answer for the following questions.

1. A place where water flows from high ground to low ground:
  - a) glacier
  - b) ocean
  - c) river
  - d) desert

2. Animals that love in water do NOT need this to survive:
  - a. Food
  - b. A place to raise their young
  - c. Clothing
  - d. The right temperature
3. Where is the Everglades located?
  - a) California
  - b) Washington
  - c) Florida
4. Plants and animals are dependent on the \_\_\_\_ in which they live.
  - a) Environment
  - b) State
  - c) Neighborhoods
5. What kind of water is in the ocean?
  - a) freshwater
  - b) saltwater
  - c) groundwater

6. What kind of water do you find in a lake?

- a) Freshwater
- b) Saltwater

7. Circle all the answers that are correct. Sea turtles DO NOT live in the

- a) pond
- b) river
- c) ocean
- d) desert

8. Freshwater is found in the

- a) Sea
- b) River
- c) Ocean

9. A \_\_\_\_\_ is a natural environment where plants and animals live.

- a) Country
- b) Building
- c) Habitat

10. South Florida depends on the Everglades for :

- a) Metals
- b) Water
- c) Sunlight
