## **"Koko and Penny" Time for Kids**

### **What does a special teacher help Koko the gorilla do?**

Koko is a gorilla. Penny Patterson is a woman. But she is like Koko's mom.

Penny found baby Koko at a zoo in 1972. Koko was a year old. Koko jumped into Penny's arms. She pulled her near. Penny liked Koko. She wanted to study her.

Penny wanted to teach Koko words. She showed her hand signs and signals. At first, Koko mostly asked for things she wanted. She would say words like "cookie" a lot!

But soon Koko could say more. Now she knows over 1,000 words. When she is happy, Koko shows a smile. When she is sad, she points to her eyes. This means "cry". Koko is really clever!

Then Penny wanted to teach Koko how to do more things. She showed her how to use a pencil and paper. Koko works hard. She may be trying to write her name!

When Koko was 12, she would sign the word "cat" a lot. So Penny gave her a kitten. Koko was really kind to her kitty. She named him All Ball. She has had many more pets and has been kind to all of them.

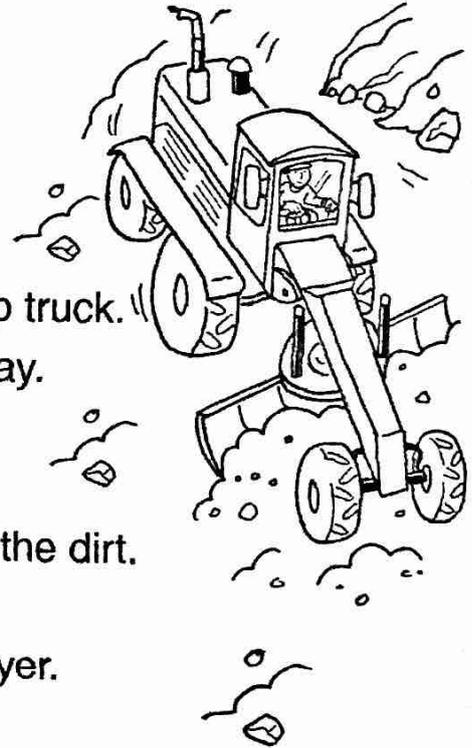

These days Koko has lots of projects that keep her busy. She has a hobby. It is painting. Koko paints many things. Koko likes to name her paintings. She has done paintings named "Bird" and "Love".

Koko and Penny have worked and played together for a long time! Koko and Penny are quite a team.

Read the story. Ask yourself, "What are the steps in making a road?"

Making a road takes a long time.  
Large machines do most of the work.  
First, a backhoe cleans up the land.  
It digs up plants and dirt.  
It scoops up heavy stones.  
The backhoe drops the things into a dump truck.  
The dump truck then drives the things away.  
Then, someone tests the dirt.  
The dirt needs to be strong.  
Next, a machine called a grader smooths the dirt.  
The dirt must be flat and packed tight.  
Finally, trucks pour on a hard, black top layer.  
That layer makes the road strong.

Fill in the circle next to the correct answer.

1. What is the first step in making a road?  
 A A grader makes the dirt flat and hard.  
 B A backhoe digs up stones and dirt.  
 C Trucks pour on a top layer.
2. When is the dirt tested?  
 A before stones and plants are dug up  
 B after a top layer is poured  
 C before the dirt is made smooth
3. What is the last step in making a road?  
 A A top layer is poured.  
 B Someone tests the dirt.  
 C Dump trucks take stones away.

4. What happens after the dirt is tested?

WEEK 25  
DAY 4

Read the story. Find out the steps in getting milk from a farm to a store.

The milk you drink comes from a cow.  
Every day, farmers milk their cows.  
They send the milk to a dairy plant.  
There, the milk is stored in large tanks.  
The tanks keep the milk cold.  
Next, the milk is quickly heated.  
The heat gets rid of germs.  
Then, the milk is made very cold again.  
The cold milk is poured into large machines.  
Milk cartons move along under the machines.  
The machines pour the milk into the cartons.  
Other machines close the tops.  
Trucks take the cold milk to stores.

Fill in the circle next to the correct answer.

1. After a cow is milked, \_\_\_\_\_.  
Ⓐ the milk is put into large tanks  
Ⓑ the milk is heated

Read the story. Remember the order the octopus does things.

Ozzy was a rude octopus.  
He swam right into the home of the three otters.  
Ozzy saw three crabs lying on the table.  
He took a bite of the big crab.  
“This crab is too chewy!” said Ozzy.  
Then he bit the middle-sized crab.  
“This crab is too hard,” he whined.  
Ozzy bit the small crab and ate it all up.  
Then Ozzy saw three pieces of kelp.  
The big kelp was too long.  
The middle-sized kelp was too stinky.  
But the small kelp was just right.  
Ozzy wrapped himself up and fell asleep.

Fill in the circle next to the correct answer.

- 1. The first thing Ozzy does in the otters' home is \_\_\_\_\_.  
Ⓐ bite the big crab  
Ⓑ eat the small crab  
Ⓒ wrap himself in kelp
- 2. What is the last thing Ozzy does?
