

## MINERALS AND IGNEOUS ROCK REVIEW

Upload to Archie by 11/16/2020

1. What is the difference between a rock and a mineral?
2. List the 5 criteria minerals all have.
3. How is igneous rock made?
4. Where does igneous rock form – inside the crust, or on top of the crust?
5. Describe the location, cooling rate, crystal size, and texture of intrusive igneous rock.
6. Describe the location, cooling rate, crystal size, and texture of extrusive igneous rock.
