

Homework

Scholars will review Chapter 12 this week. Scholars will compare and convert customary and metric units of length, weight, and liquid volume. Scholars will also review time conversions, elapsed time, and line plots. The Chapter 12 Test is scheduled for Friday May 21. Please feel free to contact me with any questions or concerns at morales.zervos@archimedean.org.

Reminders

Please have your child continue to use Reflex Math to practice and reinforce their fact fluency. The 5th Grade curriculum depends on a strong foundation in multiplication and division.

Extra Practice

Additional practice for the daily lesson is available on Archie. To access the worksheets on Archie, please have your child login into Archie. Click on Resources, select courses, then My Courses. From there, you will see a drop down menu of each class. Go to American Math and click on Resources. There you will see worksheets for each section in the chapter.

Notes

Homework is assigned through Think Central. If a scholar struggles with a question, the program includes tools providing step by step support as well as viewing an example. When scholars finish their homework lesson, please click on the button "Turn It In". **Completed homework is due by Sunday May 23rd**. Students should take the time to prove and show all their work on a separate piece of paper.
