

Chapter 1

- 1.) What does Dr. Williams think about Phineas when he first speaks with him?
- 2.) How did Phineas Gage change after his accident?

Chapter 2

- 1.) Describe two observations about the picture on Page 25.
- 2.) **Whole Brainers** - theorized that if one part of the brain was injured then the functions or thoughts that came from there will flow to another part.

Localizers (Phrenologists) - believe that the brain is divided into specific areas that control specific things.

Video

Write two misconceptions (rumors) about Phineas Gage that are not true

- Became a horrible, nasty person
- He had the rod in his head for twenty years
- No social skills
- Never hired again
- He became part of a circus attraction

Chapter 3

Chapter 3 Questions

1.) List three facts about seizures

-
-
-

***Broca's and Wernicke's areas are the first anatomical proof of localization.

2.) Dr. Harlow makes a rather unusual request of Phineas' mother. What was the request?

Chapter 4

-To what extent would you say that Phineas Gage was lucky or unlucky?

Hint: Explain what luck means and how it pertains to Phineas Gage

When you are done...

- 1.) Upload all of the questions to Archie
- 2.) Pick ONE of the commonly articles
