

Science Fair Updates

Hi everyone, here is what you should currently be working on for the Science Fair:

HYPOTHESIS - We will do our best to complete this during class this week.

VARIABLES - We will do our best to complete this during class this week.

MATERIALS - Do at home

PROCEDURES - Do at home

You will turn in all four of these sections together on 09/29/22.

You can either upload to Archie, or turn in a hard-copy.

!!Don't forget!!

- you have the directions / guide to complete these sections in your Science Fair Planning Packet.
- If your experiment will take multiple weeks for data collection OR if you need time for your materials to arrive in the mail, you must start early! Data is due 10/13
