

Using the sources posted on google classroom - under FAST Practice - answer the following question...

Write a letter to your state senator in which you argue in favor of keeping the Electoral College or changing to election by popular vote for the president of the United States.

You must cite evidence from those sources to receive full credit.

It must be an ARGUMENTATIVE essay that addresses the prompt, containing 5 paragraphs - one of them being a counter argument paragraph.

We have been working on this essay for a few weeks now, so there should be no excuse and something should be submitted. This is all in preparation for the writing FSA in April, so please take it seriously.
