

For this assignment, you will log into your Archie and navigate to your class' **Resources** link where you will:

1. Watch the posted **Documentary - Can We Cool The Planet?** *(You can adjust the settings to watch it in 720p or 1080p HD) - Take notes as you watch, which you will save or scan into a PDF.*
 - You will upload these notes to the Tracked Assignment link you see in Archie "APB-CanWeCoolThePlanet+MyCarbonEmissions"
2. When you are done watching the documentary, click on the **Carbon Emissions Calculator** also in your class' Archie Resources Link. Open the webpage link provided and *take the online Carbon Emissions Quiz to see your Household's Carbon Emissions Analysis.*
 - You will upload the final page *(which you should save as a PDF)*, your "Household's Carbon Emissions Analysis" *(the page with the pie charts & bar graphs)* to the same Tracked Assignment link you see in Archie "APB-CanWeCoolThePlanet+MyCarbonEmissions"

You can upload your video notes and your Household's Carbon Emission's Analysis as one PDF or as two separate PDFs under the same tracked assignment link.
