

6th Grade **Greek Language** - Syllabus 2024-2025

Mr. Zentelis

aristeidis.zentelis@archimedean.org

Course Description

The Greek Language class will focus on connecting past knowledge to new concepts, advance the students' level of understanding and use of Greek, and help them comfortably read, speak and write it fluently. This year, we will learn how to properly use greetings, ask and answer routine questions, and speak about ourselves and our families. Other topics will focus on education, jobs/professions, nationalities, location descriptions/ the geography of Greece, different hobbies and activities, types of food, shopping, organizing an event, weather conditions, travelling and writing letters. In addition to Greek language, the students will have the opportunity to learn and perform Greek dances at the annual "Greek Night" event. Finally, the Greek class will introduce characters and stories from Greek Mythology.
