

BIOLOGY Honors Project = Microscope

Timeline

DUE DATE: 9/08/24 in class – HARD COPY

Requirements:

1. Create a **Timeline of the microscope development**, starting in 15th century till present time. You should have minimum of 10 entries (scientists/microscopes)
2. Each entry per event/year must have:
 - Name of the inventor/scientist
 - Approximate year
 - Picture of the scientist/inventor
 - Picture of the microscope he/she invented
 - Short description of an inventor and the microscope invented
3. The project must be on 8x11 size paper, the pictures can be paste of computer-generated. *The color print is NOT necessary.* The descriptions can be typed/handwritten in a separate Google Doc which will be a part of the project. The pictures of the scientists/microscopes can be print/drawn.

Example:

year: 1665

Anthony Van Leeuwenhoek was
blab la blablabbbbbb

The timeline is submitted as a hard copy, the GD is submitted to mscabanscience@gmail.com with the small picture of your final timeline.
