

CLASSROOM NEWS

Week of : **September 2nd to 6th, 2024**

IMPORTANT EVENTS:

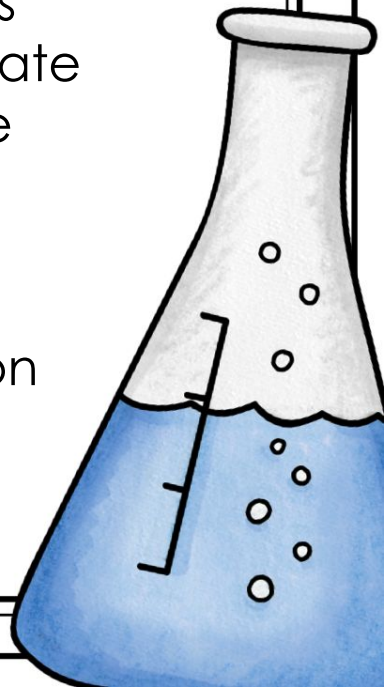

- ★ Scientific Tools
and Safety Rules
Homework due
Friday 09/06

IN OUR CLASS:

Scholars will use their **five senses** to make careful observations and understand how to describe objects in terms of color, shape, texture, size, weight, temperature, quantity, and motion.

VOCABULARY

observe
senses
classify
estimate
measure
infer
predict
model
hypothesis
data
investigate
experiment
variables
communicate
describe
safety
texture
weight
conclusion

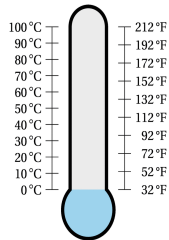

Assignment #1 – Due 09/13/24

Topic 1a: The Practice of Science

1. Answer the following.

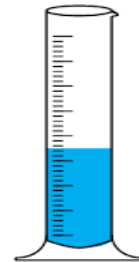

This tool is called a _____

What does this tool measure? Water or Temperature

This tool is called a _____

What does this tool measure? Length or Volume

This tool is called a _____

What does this pull toward it? Plastic or Iron

Is a marker magnetic? _____ (yes or no)

Are the scissors magnetic? _____ (yes or no)

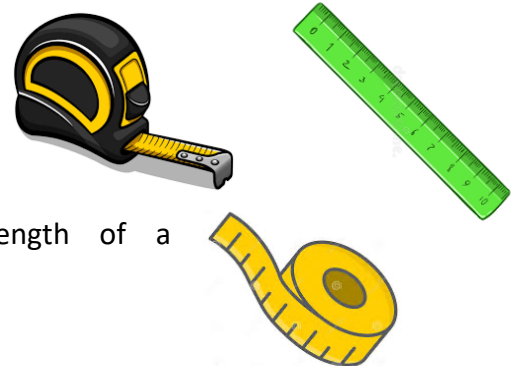

These tools are used to measure length.

Which one would be better to use to measure the length of a book?

Which one would be better to use to measure the length of a

car? _____

2. Observe the picture. Think about the procedures and rules we discussed in class about Lab Safety. Circle and color 2 things that you think are safe and 2 things that are unsafe. Complete the boxes below.

2 things that are **SAFE** in this lab

1. _____

2. _____

2 things that are **UNSAFE** in this lab

1. _____

2. _____
