

School to Home Letter

Dear Students and Parents,

Smile, every little cell in your body is well!

During the next few days, our math class will be learning how to Order and Compare Numbers Through 10. You can expect to see homework that provides practice in counting, one less and one more, along with using a number line through 10. The instruction for each activity is written at the bottom of each page.

Please download, print and staple this packet. Students should do one page of this packet each evening. It should take them 5 days to complete the packet. They should use the boxes below to check off each day the homework is completed. When the packet is complete, they should put it in their **green** folder and take it to school on Monday October 7, 2024. They will have a test on Friday. Please remember to have students complete assigned supplemental work on [Login - HMH Ed \(hnhco.com\)](https://www.hmhco.com), **Waggle**.

Congratulations to the students who have started and completed these assignments. They will be rewarded. I am looking to see all students doing Waggle this week.

Warmly,
Kadisha Mills, Ph.D.

Name: _____ Class: _____

Monday	Tuesday	Wednesday	Thursday	Friday

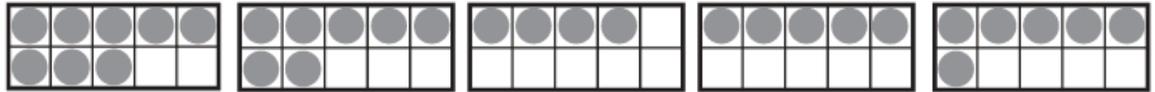

Name _____

LESSON 6.1
Practice and Homework

Count and Order to 10

Go Online

Interactive Examples

Tracing practice for the number 4. The first row shows a dashed number 4 with arrows indicating stroke order. The second row shows a solid number 4 with arrows. The third row is blank for independent practice.

Tracing practice for the number 6. The first row shows a dashed number 6 with arrows indicating stroke order. The second row shows a solid number 6 with arrows. The third row is blank for independent practice.
