Dear Scholars,

We will work on the number's Greek name and will learn how to recognize which number is before, after, between, greater, equal or smaller up to 100. We will analyze the value of a number (tens and ones) and also practice *addition & comparison problems* and work on counting by 2 & 10 forward and backward. Introduction to Mental Mathematics (*Completion of a multiple of 10*).

TEST will be taken, in class, on **Wednesday 11/13/2024.**
