

Dear Families,

I am excited to share information about an upcoming project in our Social Studies class that will encourage students to explore and understand the connections within their local communities and the larger world around them.

The Nesting Map Project allows students to visualize the relationships between their family, community, state, country, and world—and how all of these connect with one another.

This hands-on activity will foster their understanding of geography, community relationships, and their place in the world.

Project Details:

- **What to Do:**
- **Students will create a Nesting Map. They may draw or cut and paste pictures for each level: family, community, state, country, and world.**
- **Due Date: Monday, January 13, 2025**

I have attached a sample project and template to this email to help guide you and your child through the process. Please let me know if you have any questions.

Thank you for your support and encouragement at home! I can't wait to see the wonderful Nesting Maps our students will create.
