

2nd Grade

American Math Homework Week 02/17 - 02/21

HMH Chapter 14 Vocabulary Word

- **centimeter**
- **meter**
- **align**
- **estimate**
- **measure**
- **length**

A Note From Ms. Varela

We will begin Chapter 14, Measurement. Students will be able to estimate and measure the length of an object to the nearest inch, foot, yard, centimeter or meter by selecting and using an appropriate tool.

Students took home a meter stick craft worksheet.

Please see that your child assembles it. After you allow some time for the glue to dry, fold it into 3 or 4 sections and place it back in the green folder.

The meter stick is due on Tuesday, Feb 18th.

Homework

The homework is due Monday, February 24th.

IXL homework may be completed in an iPad or desktop. The IXL login credentials are stapled in the American Math green folder.

Monday	President's Day. No school. Practice for test attached.
Tuesday	IXL 7WA Measure using a centimeter ruler
Wednesday	IXL 26F Choose the best measuring tool: metric units of length IXL FWF Measure with different metric units
Thursday	IXL KJ5 Metric units of length: word problems IXL KBA Compare lengths in centimeters
Friday	IXL SKH Which metric unit of length is appropriate? Complete the attached worksheets

Units of length (centimeters and meters)

Grade 2 Measurement Worksheet

Fill in the proper units (**cm** or **m**) for each measurement.

1 meter = 100 centimeters

Length of a guitar

1 _____

Length of a tie

90 _____

Height of a wedding cake

1 _____

Length of a peanut

3 _____

Width of a postcard

14 _____

Length of a blue box

70 _____

Units of length (centimeters and meters)

Grade 2 Measurement Worksheet

Fill in the proper units (**cm** or **m**) for each measurement.

1 meter = 100 centimeters

Length of a carrot

32 _____

Height of a shaker

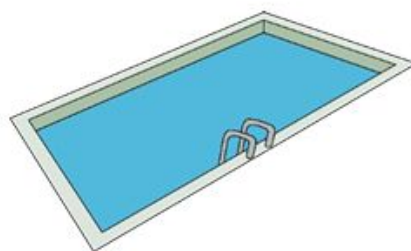

8 _____

Length of a dump truck

11 _____

Length of a swimming pool

40 _____

Length of a shovel

1 _____

Width of a house

15 _____

Fill in the proper units (**cm** or **m**) for each measurement.

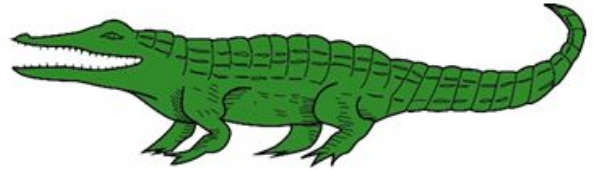

1 meter = 100 centimeters

Length of a pair of sunglasses

20 _____

Length of an alligator

2 _____

Length of a city train

65 _____

Length of a car

4 _____

Height of an ostrich

1 _____

Length of a toothbrush

18 _____
