

Integumentary Research Activity

Your paper should include the followings:

- ❖ Name of the skin disorder/disease.
- ❖ What is the cause?
- ❖ What are the symptoms?
- ❖ What is the prognosis(medical prediction about the future course and outcome of a disease or disorder)? Treatment?
- ❖ If the disorder is contagious , how do you keep from getting it? If it is not contagious, please explain how we could reduce the risk of getting it?
