

As you read through chapters 5-6, look for quotes that signal important topics to be discussed within the story.

Select one of those quotes from the chapter and create a PowerPoint slide like Ms. Gomez's presentations.

Your slide should have a title that encompasses the theme of your idea, the quote you have selected, and a question to ask the class.

Then, on a second slide, include your own answer to the question posed.

Everyone will present their quote/question next week and we will discuss what happened in the chapters via your questions and analysis, so be ready to share.

This can be done solo or in a pair. No more than two people, please - this short of an assignment does NOT necessitate a large group...
