

## Philosophy Work That May be Completed in Science 4/16

8C

**Instructions:** Even though we have had several work days, you may not have completed BOTH the classwork and survey for the previous section. Mr. Shahin has granted me permission to assign work during his class today (4/16).

You are to complete any remaining work for my class that you have left:

- 1) The Note Answers for the previous section
- 2) The Classwork
- 3) The Survey

If you require links to the Classwork or Survey you may find them below.

**To Emphasize:** This class has already received a significant amount of time to complete this work. I will start new material (covered in the most recent new set of notes) on Wednesday (in our normal class). Any remaining uncompleted work will receive a Z in the gradebook if I do not have it before Thursday's class (so, Wednesday night).
