

## HOMEWORK ASSIGNMENT – Ethics Olympiad

By Thursday of next week, each team must have 1½ cases completed. This will count as a graded assignment.

### This upcoming week's plan:

- **Case Work:** You'll have the first 30 minutes of each Olympiad meeting to continue developing and completing cases **beyond the 1½ required**.
  - This is so we can end the week with about 2 cases and maybe a little more.
- **Practice Sessions:** The second 30 minutes of each meeting this week will be used for practice rounds and discussion of your arguments. I will have both teams go against each other.
- **Grading:** Progress will be checked, and completion by Thursday will be graded. I've also decided that when you reach completion of 4 cases total per group, I will count that as a quiz grade posted for that group, and 6 or 7 cases as a test grade.

Make sure your team divides the work efficiently and comes ready to practice your responses during the second half of our sessions.

**Also, I got to say: the work you've done in a little over a week has been great! Very impressed by all of you.**
