

Science Fair Presentation

Extra Credit Opportunity

This assignment is fully optional and can only help you. Even if you do “bad” on this, it just won’t boost your grade as much. So PLEASE follow the few directions I give here as you complete this easy A.

Directions: Using all of the feedback that was given on the Science Fair project throughout the past months, create a PowerPoint presentation with all the information you wrote in your Science Fair packet. See the Resources section of Archie for an example presentation. Make sure your presentation has the following:

- Use **COMPLETE sentences** for all parts of the presentation.
- Format the presentation with Times New Roman or Arial font at a readable size (no less than 8).
- Place the sections in the same order as they are given in the packet ***EXCEPT FOR THE BIBLIOGRAPHY!!! PUT THE SUMMARY AND SOURCE LIST AT THE END OF THE PRESENTATION***
- Have a title slide with your full name and a title representative of your project’s theme.
- Keep all parts of a section together on one slide (i.e. all of the procedures are on the same slide, the whole conclusion paragraph is on the same slide). Elements can be combined on the same slide if there is enough space.
- Turn in the pdf of the PowerPoint to Archie by **November 14th**
