First Grade American Math Homework #15

This week in class, we will continue with **Chapter 6 and 10: Addition Strategies**. We will continue working on addition strategies, adding two digit and one digit numbers with regrouping, add two digit and two-digit numbers without regrouping, and determining whether addition equations are true or false.

There will be a test on **Monday, December 15th**. To review for the test, scholars can use last week's and this week's homework, Cinemath, and the IXL lessons below, as well as additional resources posted on Archie.

Scholars have access to the IXL math platform for additional practice and reinforcement of the daily lesson. There is no limit to how many times scholars can review the lessons. Below, please find practice modules scholars can complete from home to develop a deeper understanding of the daily lesson.

- CC.3 - DD.9 - D.12
- DD.4 - DD.10 - Y.3
- DD.5 - DD.11 - Y.4

Vocabulary

Add	Equals	All together
Addends	Doubles Facts	Total
Addition	Bar Model	Combine
Equation	Tens Facts	
Sum	Plus	

Notes

Students **MUST** prove and show all their work. If additional space is needed, please feel free to attach lined paper to the homework packet. **Failure to show your work will result in a lower grade.** Please complete the homework to the best of your abilities. As a reminder, scholars will be taking their PM2 Math test this week. I will send an additional email with more information Sunday night.

Monday December 8th – Single Digit Addition

Tuesday December 9th – Word Problems

Wednesday December 10th – Adding 2 Digit and 1 Digit Numbers

Thursday December 11th – Adding 3 Numbers

Friday December 12th – Adding 2 Digit and 2 Digit Numbers

Solve each addition equation below.

$3 + 4 = \square$

$5 + 3 = \square$

$5 + 0 = \square$

$8 + 1 = \square$

$2 + 2 = \square$

$4 + 5 = \square$

$8 + 1 = \square$

$1 + 7 = \square$

$7 + 2 = \square$

$5 + 2 = \square$

$0 + 9 = \square$

$8 + 0 = \square$

Word Problems

Name: _____

Date: _____

1. Lily has 18 apples, and she picks 7 more from the tree. How many apples does Lily have in all?	
2. There are 20 frogs in the pond, and 7 more jump in. How many frogs are in the pond now?	
3. Emily has 11 seashells, and she finds 9 more at the beach. How many seashells does Emily have?	
4. Max has 21 toy cars. His mom gives him 8 more. How many toy cars does Max have now?	
5. Leo puts out 27 Christmas cookies and 12 bottles of milk for Santa and his helpers. How many treats does Leo put out?	

Name : _____

Adding Two Digit and One Digit Numbers

$18 + 8$

$29 + 5 =$

$67 + 7 =$

$33 + 8 =$

$19 + 4 =$

$26 + 9 =$

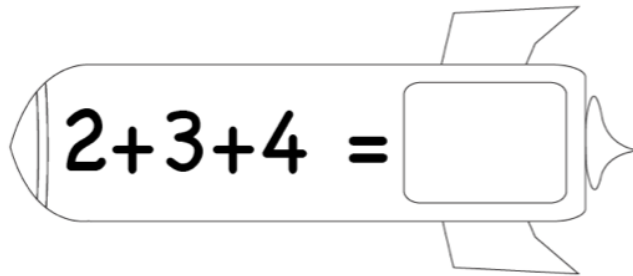

$46 + 4 =$

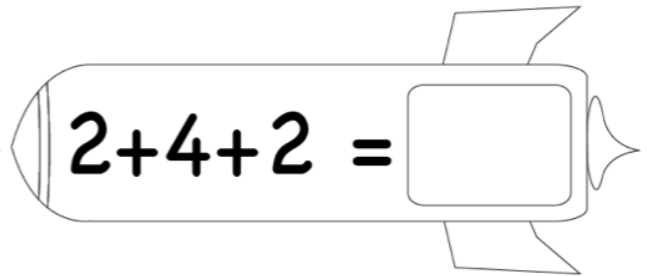

$35 + 6 =$

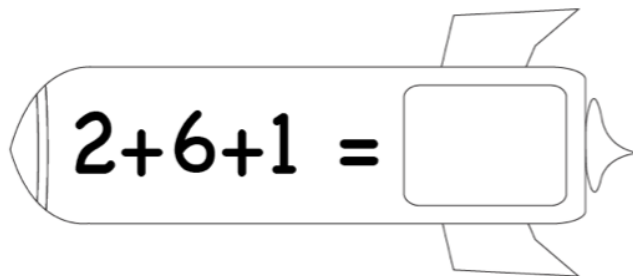

$78 + 6 =$

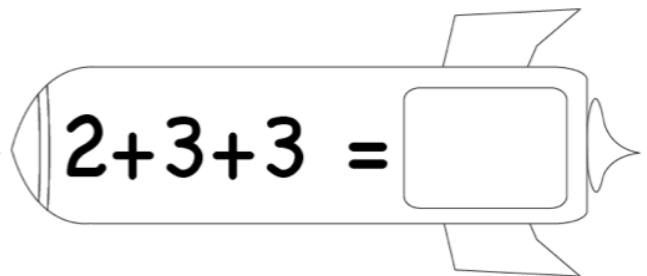

$93 + 9 =$

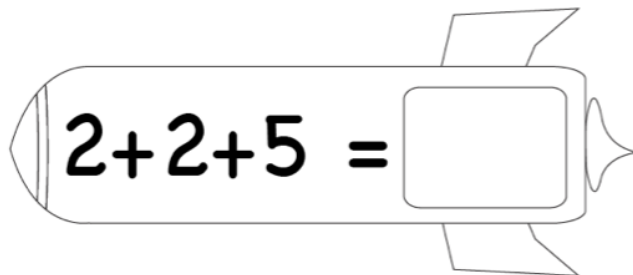

Adding 3 Numbers

 $2+3+4 = \square$

 $2+4+2 = \square$

 $2+6+1 = \square$

 $2+3+3 = \square$

 $2+2+5 = \square$

 $1+3+5 = \square$

 $7+3+5 = \square$

 $6+4+5 = \square$

 $2+3+8 = \square$

 $2+3+7 = \square$
