Note to Geometry Students of 8th Grade (A,B,C,D and E)

Dear Students,

I am not in school today also. During my class you may do the work as mentioned below.

Take the **new text book** and do the **Chapter -7 Review** on pages **399 and 400**.

Do as many questions as possible. Do the **work in your note book** so that **I may check** in the next class. **(Do not scribble or write anything in the Text book)**

With regards,

Mr. George.
