

## Substitute Lesson Plans

Monday, January 5

6B

1. 4.4 CLASSWORK- posted on Archie under Homework. Allow students to work on this for 15 minutes. Students should highlight text evidence and answer the questions- they do not need to do page 1. They should put the number of the question next to the text evidence indicating which question/answer it is supporting.
  - a. After 15 minutes of working, allow them to discuss each question/answer with their group- substitute will give a PARTICIPATION GRADE for their group discussions as an individual. Allow 5 minutes of discussion per question/answer.
  - b. Students will discuss and make corrections to their responses with their substitute.
2. HW 4.4- Link on Archie under Resources. Allow students to work on this for 15 minutes. Let them know that although this is a HW, it is assigned for them to do in class and they should submit at the end of the 15 minutes.
3. 4.4 Guided Notes- on Archie under Resources. Allow students to work on this for the remainder of the period. Students should copy the notes to their notebook and then research to find the answers using the sources on Archie only. Remind them that whenever possible, they should shorten their notes when they are writing without losing meaning. This activity is an exercise on becoming faster and better at quickly writing notes.
