

Dear Parents,

If you'd like your child to get some extra reading comprehension practice at home, I've put together a list of fun and completely free online resources that your 1st grader can explore. These websites are designed to make reading practice enjoyable while helping your child build stronger vocabulary, listening, and comprehension skills.

At this age, children benefit greatly from hearing stories read aloud, answering questions about what they've read, and making connections between stories and their own experiences. The following websites include interactive games, read-aloud options, and short reading passages that are perfect for beginning readers.

Reading Comprehension Practice Websites:

ABCya – Interactive reading games organized by grade level.
