

Based on the poetry that we talked about today, I would like you to try writing your own Shakespearean sonnet.

Remember, that means your poem should have 14 lines - three quatrains (3 stanzas that have 4 lines each) and a rhyming couplet (a stanza that has two lines).

The rhyme scheme should be → abab cdcd efef gg

Volta (turning point) is in the last lines of the poem :)

I would also like your poem to be about Gregor - he needs some love after his family treated him so poorly :(
