# SCIENCE HOMEWORK

SECTIONS 2A, 2B, 2C, 2D, 2E

WEEK OF: March 16th-20th, 2026

## HOMEWORK

- Read and answer in complete sentences  
*"What is Energy?"*

## TOPIC

- Energy, Force and Motion
- Forms of Energy: electrical, light, sound, mechanical, potential and kinetic

## VOCABULARY

- \*Push and Pull
- \*Gravity
- \*Attract and Repel

Contact me

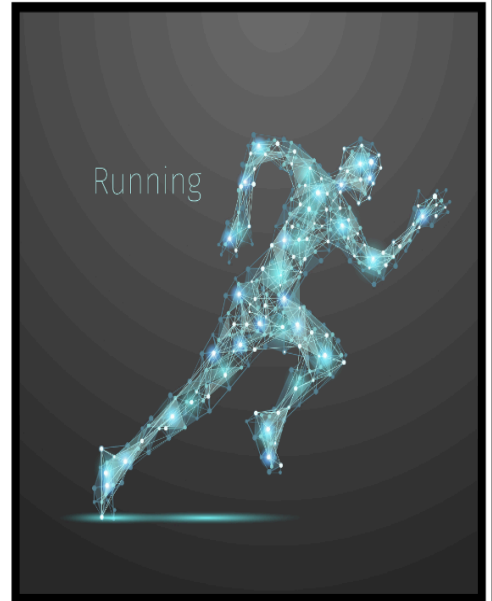

[dorlaine.quintana@archimedean.org](mailto:dorlaine.quintana@archimedean.org)

## REMINDERS

- Homework due 3/23
- TEST Thursday 3/26
- iPads FULLY CHARGED

# What is Energy?

**Energy** is the ability to do work. In the study of science, work is any kind of movement or change. Work can be a dog barking or a person cleaning the house. Work can also be children playing on the playground. Even walking in the hall counts as work in science because it takes energy to move. Work can take a lot of energy like building a house, or it can take a little bit of energy, like picking a flower.

## Questions:

1. What is energy? \_\_\_\_\_
2. Describe some activities that require a lot of energy?  
\_\_\_\_\_
