ΤΑΞΗ (CLASS): _____

Εργασία - (Homework) Greek Math

04/06/2026 - 04/09/2026

(2A,2B, 2C,2D,2E)

Ψέριμος

Quiz 04.08.2026 (3-digit numbers addition and subtraction)

Test 04.15.2026 (Place Value (Hundreds, Tens, Ones), 3-digit Numbers Addition & Subtraction, Numbers in Greek, Shapes and Solids in Greek)

This week, students will continue working with three-digit numbers in Greek. They will continue practicing in 3-digit numbers addition with carrying and 3-digit subtraction with borrowing. Finally we will move into 2D Shapes and 3D solids in Greek.

Dear Parents,

This week's homework focuses on practicing three-digit addition and subtraction in Greek.

Exercise 1 asks students to solve horizontal addition and subtraction problems. These problems help students practice mental math and understand how numbers change when adding or subtracting hundreds, tens, and ones.

Exercise 2a focuses on vertical addition with or without regrouping (carrying). Students practice adding three-digit numbers using the standard algorithm.

Exercise 2b focuses on vertical subtraction with or without regrouping (borrowing). Students solve subtraction problems step by step using place value.

Exercise 3 asks students to complete numbers written in Greek by filling in the missing digits. This helps reinforce number recognition and mathematical vocabulary in Greek.

These activities help students build confidence in addition and subtraction strategies while strengthening their understanding of numbers in Greek.

Please remind your child to bring the completed homework in their blue folder by 04.09.2026.

If you have any questions, feel free to contact me at:

Warm regards,

Mr. Stamatios Mavrogeorgis

Άσκηση 1: Κάνω τις οριζόντιες προσθέσεις και αφαιρέσεις

$200 + 300 + 50 = \dots\dots\dots$

$468 - 200 = \dots\dots\dots$

$100 + 50 + 50 = \dots\dots\dots$

$792 - 300 = \dots\dots\dots$

$800 + 100 + 30 = \dots\dots\dots$

$321 - 20 = \dots\dots\dots$

$300 + 400 + 5 = \dots\dots\dots$

$900 - 800 = \dots\dots\dots$

$700 + 100 + 10 = \dots\dots\dots$

$899 - 99 = \dots\dots\dots$

$400 + 50 + 5 = \dots\dots\dots$

$670 - 170 = \dots\dots\dots$

$600 + 100 + 300 = \dots\dots\dots$

$800 - 800 = \dots\dots\dots$

$500 + 400 + 95 = \dots\dots\dots$

$425 - 405 = \dots\dots\dots$

Άσκηση 2α: Κάνω τις κάθετες προσθέσεις και χρησιμοποιώ κρατούμενο όπου χρειάζεται
