Εργασία - (Homework) Greek Math

04/13/2026 - 04/16/2026

(2A,2B, 2C,2D,2E)

Σύμη

Test 04.15.2026 (Place Value (Hundreds, Tens, Ones), 3-digit Numbers Addition & Subtraction, Numbers in Greek, Shapes and Solids in Greek)

This week, students will continue working with three-digit numbers, 2D shapes and 3D solids in Greek. Finally we will move into days, months and counting time (calendar) in Greek

Dear Parents,

This week's homework focuses on practicing three-digit addition and subtraction, as well as identifying 2D shapes and 3D solids in Greek.

Exercise 1 asks students to solve horizontal addition and subtraction operations. These operations help students strengthen their mental math skills and understand how numbers change when adding or subtracting hundreds, tens, and ones.

Exercise 2 focuses on identifying 2D shapes in Greek. Students practice recognizing and naming shapes such as triangle, circle, rectangle, rhombus, and others.

Exercise 3 focuses on identifying 3D solids in Greek. Students will recognize and name solids such as cube, sphere, cylinder, cone, and prism.

These activities help students build confidence in math operations and geometry concepts while strengthening their understanding of mathematical vocabulary in Greek.

Please remind your child to bring the completed homework in their blue folder by 04.16.2026.

If you have any questions, feel free to contact me at:

Warm regards,

Mr. Stamatios Mavrogeorgis

Άσκηση 1: Κάνω τις οριζόντιες προσθέσεις και αφαιρέσεις

$500 + 200 + 70 = \dots\dots\dots$

$948 - 900 = \dots\dots\dots$

$100 + 100 + 700 = \dots\dots\dots$

$692 - 90 = \dots\dots\dots$

$300 + 300 + 30 = \dots\dots\dots$

$689 - 500 = \dots\dots\dots$

$800 + 100 + 5 = \dots\dots\dots$

$1000 - 900 = \dots\dots\dots$

$400 + 100 + 25 = \dots\dots\dots$

$799 - 299 = \dots\dots\dots$

$600 + 90 + 2 = \dots\dots\dots$

$930 - 630 = \dots\dots\dots$

$100 + 700 + 200 = \dots\dots\dots$

$900 - 50 = \dots\dots\dots$

$100 + 800 + 75 = \dots\dots\dots$

$665 - 105 = \dots\dots\dots$
