

Please use the Archimedean Homework Upload interface to submit the classwork assignment you completed while I was out.

You may upload either:

- A clear picture of your completed work, or
- A copied-and-pasted version of your responses below.

The assignment included the following questions:

1. Explain what Zeno's paradoxes prove. Then, explain how Aristotle replies.
2. Leibniz is right, why would a universe with no objects also have no time? Explain carefully.
3. What is Kant's Noumena and Phenomena distinction about? Why does would this be troublesome for the emerging science at the time.
4. Explain the difference between Empiricism and Rationalism. Which do you agree with more and why?
